Medical Centre Management System

Diploma in Software Engineering

2023.2F

Final Project File Design

File Number: F001

File Name: Admin

Primary Key: Admin_ID

Field Name	Type	Size	Description
Admin_ID	varchar	10	admin number formatADM1 as user name
First Name	varchar	20	First name
Last Name	varchar	20	Last name
House No	varchar	20	House number of the address
Street Name	varchar	max	Street number of the address
City	varcahr	max	City name
DOB	Date	3	Date of birth
Qualifications	varchar	Max	Qualification
ContactNumber	int	4	Contact Number
Email Address	varchar	30	Email Address
User Password	varchar	10	Login password
Salary	decimal	(18,2)	Salary
Total		135 bytes	

File Number:F002

File Name: Doctor

Primary Key: Doctor_ID

Field Name	Type	Size	Description
Doctor ID	varchar	10	Doctor number format DOC1 as user name
First Name	varchar	20	First name
Last Name	varchar	20	Last name
House No	varchar	20	House number of the address
Street Name	varchar	max	Street number of the address
City	varcahr	max	City name
DOB	Date	3	Date of birth
Email Address	varchar	30	Email Address
User Password	varchar	10	Login password
ContactNumber	int	4	Contact Number
Qualifications	varchar	max	Qualification
Admin_ID	varchar	10	Reffering Admin Table
Total		127 bytes	

File Number:F003

File Name: Employee

Primary Key: Emp_ID

Field Name	Type	Size	Description
Emp_ID	varchar	5	Employee number format EMP1
First Name	varchar	20	First name
Last Name	varchar	20	Last name
House No	varchar	20	House number of the address
Street Name	varchar	max	Street number of the address
City	varcahr	max	City name
DOB	Date	3	Date of birth
Qualifications	varchar	max	Qualification
Email Address	varchar	30	Email Address
ContactNumber	int	4	Contact Number
User Password	varchar	10	Login password
Salary	decimal	(18,2)	Salary
Doctor ID	varchar	10	Referring Doctor Table
Admin_ID	varchar	10	Referring Admin Table
Total		150 bytes	

File Number:F004

File Name: Pharmacist

Field Name	Type	Size	Description
Pharmacist ID	varchar	10	Referring Employee Table
Pharamacists License Number	varchar	10	Pharmacist registration number of SLMC
Inventory Management Skills	varchar	max	Is pharamacits have drug inventory management skiils(YES/NO)?
Total		10 bytes	

File Number:F005

Primary Key: Patient_ID

File Name: Patient_info

Field Name	Type	Size	Description
Patient ID	varchar	50	Patient Number format P00001
Name	varchar	50	Name
Address	varchar	50	Address
DOB	Date	3	Date of birth
Gender	varchar	10	Patient gender
Contact Number	numeric	18,0	Contact information
Email	varchar	50	Email address
Password	varchar	10	Login password
Med_Assistant_ID	varchar	10	Referring medical centre asssitant Table
Total		245bytes	

File Number:F006

File Name: Medical centre Assistant

Field Name	Type	Size	Description
Med_Assistant_ID	varchar	10	Referring Employee Table
Experience	Date	3	Years of experience as medical centre assitant
Assigned Duties	varchar	max	Assigne duties in medical centre(appointment book, prescription management…)
Total		3 bytes	

File Number:F007

File Name: Lab Assistant

Field Name	Type	Size	Description
Lab-Assistant_ID	varchar	10	Referring Employee Table
Laboratory Technicians Registration Number	varchar	10	Medical aboratory technicians registration number of SLMC
Laboratory Practices Centers	varchar	max	Previous experience centres as profession
Total		10 bytes	

File Name: Drug Supplier data file

Primary Key: Supplier_Id

Field Name	Type	Size	Description
Supplier_Id	int	4	Drug supplier number format DS001
Supplier_Name	varchar	50	First name
Company_Name	varchar	50	Supplier's Company name
Company_Address	varchar	max	Address
Email	varchar	20	Email Address as user name
Password	varchar	10	Login password
Contact_Number	int	4	Contact number
Pharamacists_ID	varchar	10	Referring pharamacists table
Total		158 bytes	

File Number:F009

File Name: Doctor sessions

Primary key: Session_ID

Field Name	Type	Size	Description
Session_ID	int	4	session ID, used to uniquely track the appointments
SessionDate	Date	3	Relevant Date
Start Time	Time	5	Session start time
End Time	Time	5	Session end time
AppointmentNumber	int	4	Session Number
AppointmentStatus	varchar	30	Indicates whether the session is available or not.
DoctorID	varchar	10	Referring doctor table
Med_Assistant_ID	varchar	10	Referring medical centre assistant table
Total		71bytes	

File Number:F010

File Name: Drug Inventory

Primary Key: Drug_ID

Field Name	Type	Size	Description
Drug_ID	int	4	Drug ID , used to uniquely track the drugs
Drug_Name	varchar	30	Drug name
Pack Size	varchar	30	Pack size(ex- 750ml,100S)
Exp_date	Date	3	Med Expiration date
Drug_price	decimal	10,2	Med price
Quantity	Int	4	Available quantity of stocks
Pharamacists_ID	varchar	10	Referring pharamacists table
Total		101bytes	

File Number:F011

File Name: M_Certificate

Primary Key:MC_ID

Field Name	Type	Size	Description
MC_ID	numeric	18,0	MC_ID, used to uniquely track the Medical certificates
Description	varchar	50	Description
Issued_Date	Date	3	Date of Issued
Start Date	Date	3	Start date
End Date	Date	3	End date
Patient ID	varchar	50	Referring patient table
Doctor ID	varchar	10	Referring doctor table

Total		137 bytes	

File Number:F012

File Name: Appointment

Primary Key: Appoinment_ID

Field Name	Type	Size	Description
Appoinment_ID	int	4	Appointment ID, used to uniquely track the appointments
Date	Date	50	Date of the appointment
Time	Time	5	Time for the appointment consul
Appoinment Number	numeric	18,0	Appointment number of day
Status	varchar	50	Current Appoinment Status
Patient_ID	varchar	10	Referring patient table
Med_Assistant_ID	Varchar	10	Referring doctor table
Total		147 Bytes	

File Number:F013

File Name: Prescript

Primary Key: PrescriptionNumber

Field Name	Type	Size	Description
PrescriptionNumber	varchar	50	Prescription id, used to uniquely track the prescriptions
Medicine	varchar	50	Prescribed medication
Date	Date	3	Prescribed date
Dosage	varchar	50	Indicates the amount of medication prescribed
Duration	varchar	50	Indicates the time the prescribed medication should be taken

patient_ID	varchar	50	Referring patient table
Med_Assistant_ID	Varchar	10	Referring doctor table
Total		263 bytes	

File Number:F014

File Name: Lab Test Report

Primary Key: Lab_Report_ID

Field Name	Type	Size	Description
Lab_Report_ID	int	4	Lab report Id ,used to uniquely track the Lab Tests
Rep_status	varchar	50	Report status
Blood_collected_time	DateTime	10	Blood sample collected time with date
Report_Relased_time	DateTime	10	Report released time with date
Lab_test_number	varchar	20	Lab Test number for track prescriptions
Description	varchar	max	Description about test
Patient_ID	varchar	50	Referring patient table
Lab-Assistant_ID	varchar	10	Referring laboratory assistant table
Med_Assistant_ID	varchar	10	Referring medical centre assistant table
Lab_Test_ID	int	4	Referring lab test table
Totat		246 bytes	

File Number:F015

File Name: Diagnostic_data

Primary key: Patient_ID+ Date

Field Name	Type	Size	Description
Patient_ID	int	4	Referring patient table
Date	Date	3	Date of history recorded
Description	varchar	50	Diagnose description
Medications	varchar	max	Medication
Allergies	varchar	50	Any allergies discovered
DiagnosNumber	int	4	Identify for diagnose
Med_Assistant_ID	varchar	10	Referring medical centre assistant table
Doctor ID	varchar	10	Referring doctor table
Total		129bytes	

File Number:F0016

File Name: Drug Order

Primary Key: OrderID

Field Name	Type	Size	Description
OrderID	int	5	Drug Order ID, used to uniquely track the drug order
Order_Status	Varchar	50	Order status
Total_Amount	decimal	10,2	Total price for ordering
Ordered_date	Date	10	Order date
Received_date	Date	10	Order received date
Supplier_ID	Int	4	Referring Drug supplier table

DoctorID	Varchar	10	Referring Doctor table
Pharamacists_ID	varchar	10	Referring pharmacists table
Total		109 bytes	

File Number:F0017

File Name: Order Item

Primary Key:Item_ID

Field Name	Type	Size	Description
Item_ID	int	4	Item ID, , used to uniquely track the drug order items
Drug_Name	varchar	50	Drug name
Pack Size	Varchar	30	Pack size(ex- 750ml,100S)
Quantity	int	4	Ordering quantity per item
OrderID	int	4	Referring drug order table
Total		92 bytes	

File Number:F018

File Name: Drug payment

Primary Key: PaymentID

Field Name	Type	Size	Description
PaymentID	int	4	Drug payment id, used to uniquely track the drug payements
Pay_Date	Date	3	Payment date
Total_Cost	int	4	Total cost for drugs
Payment_Method	varchar	50	Payment method
Supplier_ID	int	4	Referring drug supplier table
Pharamacists_ID	varchar	10	Referring pharmacists table

Order_ID	int	4	Referring Order Table
Total		79 bytes	

File Number:F019

File Name: Finance

Primary Key: FinanceID

Field Name	Type	Size	Description
FinanceID	Text	5	Finance ID, used to uniquely track the finance
Finance Type	Int	20	Indicates finance type (Income/ Expense)
Date	Date	10	Date of tracked finance
Category	Int	10	Indicates Income or Expenses category
Amount	Int	10	Total amount
Description	Int	10	Description
payment method	Text	20	Payment Method Cash or Card
Med_Assistant_ID	varchar	10	Referring medical centre assistant table
Total		95 bytes	

File Number:F020

File Name: Patient Payment

Primary Key: Patient_pay_ID

Field Name	Type	Size	Description
Patient_pay_ID	Varchar	20	Patient payment id
Date	Date	10	Payment paid date by patient
Payment Type	varchar	50	Reason for payment (drug payment or lab test payment)
Total_cost	Int	20	Total cost for the patient.
patient_ID	varchar	50	Referring patient table
Med_Assistant_ID	varchra	10	Referring medical centre assistant table

Total		160bytes	

File Number:F021

File Name: Lab_Tests

Primary Key: Lab_Test_ID

Field Name	Type	Size	Description
Lab_Test_ID	int	4	Laboratory tests id
Test_Name	Varchar	5	Test type or test name
Test_Price	decimal	10,2	Price of tests
Description	varchar	max	Description of tests
Total		19 bytes
